Dear Mr. Hansen,

It with great excitement that I write to you today in support of the Food Literacy Center and the proposed project at Leataata Floyd Elementary School!

As a Sacramento business owner and home owner, I truly believe this proposed project is exactly the type of thing that will make the City of Sacramento a strong player in raising healthy and happy children, profiling our city as a good steward of future generations. As a member of the Board of Directors for Food Literacy Center, I couldn't be more proud of the work of our entire organization, particularly the leadership and vision offered by Executive Director Amber Stott.

The innovative approach to teaching children to eat their vegetables that Food Literacy Center has developed is an excellent fit for the Leataata Floyd Elementary School project. Food Literacy Center was able to reach over 20,000 Sacramento area students in 2015. This partnership will ensure that even more children will be reached in the coming years. That is, more children will learn the very simple steps necessary for a healthy diet in a fun and educational environment!

As a voter, I like the idea of my tax dollars and my votes going to support candidates that believe in making Sacramento the best possible place to live. I appreciate your support of this project, Mr. Hansen, and appreciate your vision for Sacramento City Unified School District. Thank you.

Rutabaga Regards,
